DampDry 31 microfiber mop, Hook & loop, 40 cm, Grey

Devised for smooth floors, such as vinyl, as the name suggests the mop combines the benefits of both dry and damp mopping. Used dry, the electrostatic charge helps collect dust and debris in medium soiled areas. Used damp, the capillary action delivers an outstanding deep clean in light to medium soiled areas.

Wash the products as soon as possible after use - to reduce the risk that dirt becomes ingrained with stains and odors as result.

Wash cloths and mops of various types separately, to avoid contaminating each other with lint.

Pre-rinse in cold water with frequent water change, no added chemicals - in order to remove any chemicals that can have been used for cleaning and may interfere with or cause a negative impact on the fabric at higher temperatures in the washing process
