Procycle Recycling Bin 80 Litre

A new modular and cost-effective professional recycling system.

A modular recycling system with a range of back panel designs to simplify your recycling needs and includes connectors to build your own multi-recycling stations. The design features apertures at the front of the bin to attach waste bags (bags not included), while the lid can be lifted for the disposal of larger items and removed for an open bin option.

Made from hardwearing and robust polypropylene, the bins are available with colour coded back panels for glass bottles & jars, food tins & drinks cans, mixed card, food waste, plastic packaging, general waste, and mixed recycling.

Key features & benefits

Hardwearing

Recycle

Colour coded

80L capacity

- Modular system to build your own recycling bin station.
- Seven options of recycling streams.
- Simplifies recycling legislation requirements.
- Easy to remove lid for open bin option.

How to build your own recycling station

The system features a grey base and lid, so all you need to do is choose the recycling waste stream back panel and you're good to go. Each bin comes with a connector which easily slots into place.
