

COSHH Risk Assessment

PINE DISINFECTANT (5 litre)

Product Code: BC022-5

| PROCESS STAGE | POTENTIAL RISK | CONTROL MEASURES | ACTION REQUIRED |
|--|--|---|---|
| DELIVERY | | | |
| Packaged in 5 litre polythene containers in a cardboard carton. | Risk of spillage if the container is dropped. Risk of injury to user if dropped. | Trained employees should handle only single containers at any given time. Take care not to drop the containers. Ensure that the cap is secure at all times. | Transfer containers to store immediately following delivery. Do not leave containers in areas where users of the building will come into contact with them. |
| STORAGE | | | |
| Store in original sealed container and protect from extremes of temperature. Keep container closed when not in use. | Minimal risk of spillage if caps are firmly in place. Caps are not child proof. Keep out of reach of children. | Ensure that the product is stored away securely. Keep containers in secure storage areas. Store all containers below chest height to minimise risk of dropping. Restrict access to storage areas to authorised personnel. | Use oldest stock first. Make regular checks to ensure that storage area is clean and tidy. Make regular checks to ensure that containers are not split or blown. |
| USAGE | | | |
| Recommended for professional use only. For general disinfection dilute 160ml to 5 litres of clean water. For flushing, use neat for sinks, drains and gulleys. For routine cleaning and deodorising of floors, walls and painted surfaces. Dilute 80ml to 5 litres of clean water. Read the instructions for more information. | Avoid contact with eyes. Do not eat, drink or smoke when using this product. | Handle the containers with care. Ensure that the container is returned to store when not in use. Always read the manufacturer's instructions prior to use. | Provide employees with PPE as follows: <ul style="list-style-type: none"> Safety glasses not required for normal use. Protective gloves required in case of repeated or prolonged use. Skin and body protection not required for normal use. Ensure that operatives are aware of location of First Aid facilities. |
| DISPOSAL | | | |
| Empty containers must be rinsed thoroughly and disposed of as normal waste. Residual stocks may be disposed of into a foul sewer (sluice) using plenty of water. Recycle all containers wherever facilities are available. | After inhalation if person struggles to breathe remove them to fresh air and keep comfortable for breathing. After skin contact wash skin with plenty of water. If in eyes: Rinse cautiously with water for several minutes. If it worsens, get medical advice. After ingestion give nothing or a little water to drink. Get medical advice if needed. | Wash out the container using plenty of water. Do not store any other material in the empty container. Ensure that the product is exhausted before disposal. Harmful to aquatic life with long lasting effects so avoid release to the environment. Ensure that the product is not disposed of via a rainwater sewer (i.e. drain outside the building). | Ensure that all operatives are aware of the First Aid equipment. |
