

# COSHH Risk Assessment

## Contract Hand Sanitiser (5 Litre)

Product Code: BK143-5

DANGER

PROCESS STAGE	POTENTIAL RISK	CONTROL MEASURES	ACTION REQUIRED
<b>DELIVERY</b>			
Packaged in 5l polythene containers in a cardboard carton.	Risk of spillage if the container is dropped. Risk of injury to user if dropped.	Trained employees should handle only single containers at any given time. Take care not to drop the containers. Ensure that the cap is secure at all times.	Transfer containers to store immediately following delivery. Do not leave containers in areas where users of the building will come into contact with them.
<b>STORAGE</b>			
Store in a well-ventilated place. Keep cool. Keep container tightly closed.	Minimal risk of spillage if caps are firmly in place. Caps are not child proof. Keep out of reach of children. Keep away from heat, sparks, open flames, hot surfaces. No smoking.	Ensure that the product is stored away securely. Keep containers in secure storage areas. Store all containers below chest height to minimise risk of dropping. Restrict access to storage areas to authorised personnel.	Use oldest stock first. Make regular checks to ensure that storage area is clean and tidy. Make regular checks to ensure that containers are not split or blown.
<b>USAGE</b>			
Product is dispensed into a refillable dispenser or pump bottle. Use after washing and drying hands, and where handwash facilities are not available. Do not apply to broken skin. Apply a small amount to palms and spread over hands and wrists, paying special attention to cuticles and creases in the skin. Rub in well until skin is dry. This should take approximately 1 minute.	Highly flammable liquid and vapour. Causes serious eye irritation. May cause a light irritation of the linings of the mouth, throat, and gastrointestinal tract.	Handle the containers with care. Ensure that the container is returned to store when not in use. Always read the manufacturer's instructions prior to use.	Provide employees with PPE as follows: <ul style="list-style-type: none"> <li>Safety glasses not required for normal conditions of use. If there is a risk of liquid being splashed, safety glasses are required.</li> </ul> Ensure that operatives are aware of location of First Aid facilities.
<b>DISPOSAL</b>			
Empty containers must be rinsed thoroughly and disposed of as normal waste. Residual stocks may be disposed of into a foul sewer (sluice) using plenty of water. Recycle all containers wherever facilities are available.	Get medical attention if you feel unwell. Remove person to fresh air and keep comfortable for breathing if inhaled. After eye contact rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do so. Continue rinsing. If eye irritation persists: get medical advice.	Wash out the container using plenty of water. Do not store any other material in the empty container. Ensure that the product is exhausted before disposal. Avoid release to the environment. Ensure that the product is not disposed of via a rainwater sewer (ie drain outside the building). Handle empty containers with care because residual vapours are flammable.	Ensure that all operatives are aware of the First Aid equipment.
